Debugging Topics

Conditional Breakpoints

Only break if a certain criteria is met

DOM Breakpoints

Break when a DOM element changes

Event Investigation

Inspect and manipulate event listeners

Conditional Breakpoints

Only break if a certain criteria is met

DEMO:

When button is clicked
Show something on the screen

DOM Breakpoints

Break when a DOM element changes

DEMO:

When button is clicked
Change text to "New Great Content"

Event Investigation

Inspect and manipulate event listeners

DEMO:

When button is clicked
Something should log in the console

The background of the slide is a light gray color with a pattern of thin, wavy, horizontal lines that create a sense of movement and depth. The lines are more densely packed in some areas and more spread out in others, giving it a topographical or liquid-like appearance.

Thank You!
